Dan Carr  
Bellevue Schools

Dear Mr. Carr,

Welcome to [SafeSchools.com](http://SafeSchools.com), your online employee training and compliance training solution! Free access to [SafeSchools.com](http://SafeSchools.com) is a value-added benefit of your participation in the MASB-SEG Property/Casualty Pool and SEG Self-Insurer Workers' Compensation Fund. This program is endorsed by MSBO, MASA and MASB.

If your district is a member of both the MASB-SEG Property/Casualty Pool (the Pool) and the SEG Self-Insurer Workers' Compensation Fund (the Fund) you qualify to receive all SafeSchools programs at no additional cost.

If your district is a member of either the Pool or the Fund, courses related to your coverage will be free. I have included a listing of those courses in this packet. You may purchase the additional course as a package through MSBO or SafeSchools for only \$2.50 per full-time employee, per year.

SafeSchools offers 80 programs, and is planning another 40 within the next two years. Courses cover a wide variety of topics that are required for many of your employees (blood borne pathogens, asbestos, etc.) as well as important topics like bullying, sexual harassment, and student management/discipline. SafeSchools' courses are developed by leading national experts and use real-life scenarios for meaningful instruction. Additionally, SafeSchools offers a sophisticated but simple management tool that allows your district to make assignments by groups or individually and track completion of the programs electronically.

We would like to begin the simple steps of rolling SafeSchools out to your district. The enclosed 3-step implementation process begins with gathering your employee data. If have not received your Employee Upload document, please contact SafeSchools, MSBO or SET SEG at your earliest convenience.

Once we receive your employee data, we'll contact you to train you on the 'Admin area (tracking and reporting system or Compliance Management System - CMS).

We look forward to serving the Bellevue Schools. Please don't hesitate to call if you have questions.

Best Regards,

Andrew Deitschel
