BALANCED LEADERSHIP CONSORTIA FOR MICHIGAN ADMINISTRATORS

Administrator Workshop Announcement

BALANCED LEADERSHIP

The Freedom to Learn Program has partnered with McREL, the Michigan Department of Education and several Michigan ISDs to offer the Michigan Balanced Leadership Consortia. McREL has developed this consortium through leading-edge research on school, leader and teacher impact on student achievement. McREL has almost 40 years of experience with providing high-quality professional development that offers teachers and leaders with proven, practical guidance on what they can do to improve student achievement in their classrooms and schools.

McREL combines expertise, which brings together school leaders from a state, region or district and provides them with intensive, ongoing professional development aimed at raising student achievement in their schools.

The Michigan Balanced Leadership Consortia will consist of **four, two-day sessions** with an opportunity after each session for interested participants to attend a third day to participate in a training of the trainer session (ToT).

INTENDED AUDIENCE

Michigan School Administrators
